Informed Consent

- We invite you to discuss with us any questions regarding our services. The best health services are based on a friendly and mutual understanding between the provider and patient.
- I authorize the performance of any necessary diagnostic tests and treatments, which usually include chiropractic manipulation (CMT) for my condition(s). Like most health care procedures, CMT carries with it some risks. Unlike other medical treatments, the serious risks associated with CMT are extremely rare. Included are soreness or initial increased pain symptoms. More rare is dizziness, nausea or flushing, susceptibility of fracture with conditions like osteoporosis. Herniated or bulged discs may worsen even with CMT – it is important to notify the doctor of changes in symptoms. Extremely rare is risk of a certain type of stroke, although this risk is the same with primary medical care and is associated with the nature of neck pain and headache presented by the patient. (Detailed documentation is available upon request).
- Our policy requires payment in full for all services rendered at the time of visit, unless other arrangements have been made with the staff. If account is not paid within 90 days of the date of service and no financial arrangements have been made, you will be responsible for legal fees, collection agency fees, and any other expenses incurred in collecting your account.
- I understand the above information and guarantee this form was completed correctly to the best of my knowledge and understand it is my responsibility to inform this office of any changes in my medical status or address/contact information.
- I also authorize the provider and or managed care organization to release any information required to process insurance claims.
